

Southeastern Citrus Expo 2010

Fruit Competition Rules and Procedures

Fruit Preparation

1. All fruit entered must be grown by the entrant, either in a container or in the ground.
2. Before submission, fruit should be washed and prepared for eating. Remove any pesticide residue. Judges may have to taste fruit in case of a tie.
3. A minimum of three fruit of a specific cultivar must be donated per entry; for example, three Satsuma fruit are required to qualify as one entry. One of the fruit must be cut in half “against the grain” (as you would a grapefruit) to show the inside of the fruit. (See the illustration above for an example.) Fruit can be returned at the request of the entrant.
4. Fruit must contain at least ½ inch of stem attached; one fruit should have a leaf attached to the stem.
5. Check the category sheet to determine proper entry.

At the Expo

1. Entries must be completed during the assigned time. After the assigned time, entries will not be accepted.
2. At registration, you will be given an entry number to ensure anonymity. Make sure you keep this number with you until the award ceremony.
3. An entry card must be filled out for each entry. Be sure to put your entry number on each card.
4. Blue, red, and white ribbons will be awarded for each category. In addition, there will be a “Best in Show,” “Honorable Mention,” and “Most Unusual” award.

Citrus Categories for the Contest

Any cultivars not listed here will be assigned to a category by the judging coordinator.

Sweet Orange

Ambersweet
Cara Cara navel
Hamlin
Navel
Parson Brown

Lemon

Lisbon
Meyer
Ponderosa
Sanbokan
Ujukitsu

Lime

Bearss
Key
Persian

Mandarin

Changsha
Clementine
Clem-Yuz 2-2
Clem-Yuz 3-3
Dancy
Juanita
Keraji
Minneola Tangelo
Nasnaran
Orlando Tangelo
Ponkan
Satsuma
Shekwasha

Sour Orange

Abers Narrowleaf
Bergamot
Bigaradier Apepu
Boquet des Fleurs
Chinotto
Citrus neoaurantium
Gou Tou
Nansho Daidai (*Citrus taiwanica*)
Sauvage
Seville
Smooth Flat Seville
Willowleaf
Zhu Luan
